

# Rahul Verma

Full-Stack Developer | rahul.verma@example.com | +91-90xxxxxx55 | Hyderabad, India

## Professional Summary

Versatile full-stack developer with 3 years of experience building web applications end to end. Comfortable across React on the frontend and Node.js/Python on the backend, with a growing interest in cloud deployment.

## Technical Skills

- **Frontend:** React, TypeScript, HTML, CSS, Tailwind.
- **Backend:** Node.js (Express), Python (Flask), REST APIs.
- **Databases:** MongoDB, PostgreSQL.
- **Tools:** Git, Docker (basic), Jest, Postman.

## Experience

### Full-Stack Developer — Appsmith Labs (2022–Present)

- Developed customer-facing dashboards in React with a Node.js backend.
- Built and documented REST APIs consumed by web and mobile clients.

### Frontend Developer (Intern → FTE) — WebCraft (2021–2022)

- Implemented responsive UI components and improved page-load performance.

## Education

- B.Tech in Information Technology — JNTU Hyderabad (2021).
